The perpetuation of our free institutions de mands virtue and homogeneousness in our Na-tion. But this cannot be realized without the molding influence of Christianity. If England and Germany were to neglect their home mission work for a generation they would not be ma-terially affected socially or politically, because they have reached maturity and become settled in their social habits and political principles. But that is not the case with our Nation. It is as yet only a germ to be developed, not a great tree whose branches fill the land. The population of the countries I have named will not be much whose branches fill the land. The population of the countries I have named will not be much larger at the end of this century than it is to-day; but that of the United States will have increased thirty or forty millions. This increase will not be confined to the natural growth of our own people, who will be reared in our mode of thinking and living, but millions of them will come to us from Europe and Asia, Canada and South America. Among these will be found persons of every political and religious creed, from the most dangerous Anarchist to the best republican, from the most degraded idolater to the most devoted Christian. These must be put not only in the political crucible, but also in that of religion in order to reduce them into har nony with ourselves. The Romanist must be brought to accept our common schools; the Mormon, to practice monogamy; the Indian, to worship the only living and true God; the Chinaman, to adopt the principles of the Christian religion, and the Anarchist to keep the Sabbath and honor the eternal principles of God's word.

The alarming condition of portions of our country calls for still greater vigilance and effort on the part of the church. Even New England, which, in many respects, is the most favored part of our country, is even now threatened by a crushing avalanche from the North. Seven hundred and fifty thousand propagandists of the Roman Church have lately come down from Quebec with the words, "You go there to restore New England to its rightful owners," ringing in their ears. Do you doubt that those people will do all in their power to carry out the injunction of their archoishop? Can the most sagious calculator of events tell what a body of zealots like these may do in the ccurse of a generation? If the Protesjant church fails to do her duty, the homes of the Puritans may at no distant day become the abodes of Canadian Cathohes. The Middle States are threatened with a tidal wave of immigrants from Europe, the majority of whom would gladly wash away the old landmarks of

of immigrants from Europe, the majority of whom would gladly wash away the old landmarks of Puritanism, if not religion. The country is to-day standing aghast before the rising cloud of ignorance and immorality among the freedmen of the South which threatens to overspread our olitical sky with gloom. The Northwest is trembling on the top of a volcano that may at any moment shake into pieces its proudest political and religious fabrics. The Southwest is groaning under the domination of Rome as it did when the Territory formed a part of the old Mexican Republic. The Wasatch mountains are holding to-day in their bosom a fetid pool that threatens to devastate the contiguous States and Territories. The Pacific coast is threatened with heathenism. Infidelity, intellectual and practical, is everywhere striving to overthrow our Protestant Christianity. It has its clubs, its platforms, and its presses. It has the tongue the orator, and the ear of the populace. It is becoming every day more resolute, formidable and boastful. What but Christ's gospel, the power of God unto salvation, can meet such threatening evils? * *

In closing, the reverend gentleman said: We are to-day a spectacle to men and angels. Our ministers and members over the whole land are anxiously watching every word and act of this assembly. Sister churches of every name ere praying and hoping that our deliberations may be marked with the presence of the divine Spirit. The Hierarchy of Rome, that has always looked upon our church as the power behind the throne of Protestant Christianity, is hoping that the spirit of discord may confound our councils and deal a deadly blow at our growing influence. The daughters of the Philistines stand ready to rejoice at any mishap that may befall us, because they deem the Presbyterian church the last stronghold of orthodoxy. The electric wires will carry not only our words and resolu tions, but even the tone and temper of our discussions, to the ends of the earth. Let nothing therefore, be done through strife or vainglory; let not pride of opinion lead any one to persist in pressing his personal preferences upon the whole church; let no proposition be entertained that shall tend to disturb our peace or impede our progress in bringing the world to Christ.

Let all our deliberations and actions be directed toward bringing about the glorious day fore-told by the prophets. We read that the church and the world are destined to meet in the second

Adam as truly as they met six thousand years ago in the first Adam. That which is now regarded by many as the mingling of the church and the world is only the leavening of the latter by the former. This process will certainly go on until the whole lump is leavened. The position of the church in our day is, in the words of Dr. South, "that of nature in early spring when there is more of cold wind, and biting frost, and drifting snow than there was during the hiberna days, but withal these signs of lingering winter are blended with symptoms of approaching sum-mer." Let not the low spirits caused by these March frests and April winds lead any of us to conclude that the world is growing worse. May ours be a spirit more hopeful and trustful in the power of God. Let us look for that kind of prog-gress in the church which shall unfold into a som, and for a blossom that shall mature into a ripened fruit; for a past that shall give rise to a present, and for a present that shall merge into a glorious future. Let us look for the principles of Christianity to so permeate our system of government that it shall ere long cause our national life to correspond with our best laws, and for society to be such as to do away with the conflict now waging between labor and capital.

The committee believed that all Presbyterians would accept the first three propositions, viz.: The supremacy of the holy Scriptures as a supreme rule of faith, the Nicene Creed as a true, though not exhaustive, statement of Christian doctrine, and the two sacraments, baptism and the Lord's Supper, duly administered. As to the fourth—the historical episcopal the Presbyterian church has always conidered that its presbyters are true bishops. Several communications and interviews between the representatives of these two great bodies have been beld during the year, and the hope was ex-pressed that they may be the first steps to-ward a more close and ultimate unity between them. Correspondence has also been held with Prof. George P. Fisher, D. D., of Yale Theological Seminary, chairman of a committee of the Triennal Congregational Council. Resolutions accompanying the report, deprecating the undue multiplication of churches of different denominations in small communities, and recommending that comity be practiced by home missionary superintendents and officials, were read, and the paper itself was ordered to be printed. The continuance of the negotiations with the Episcopal and Congregational, and any other denominations that may desire it, was recommended by the committee. BROOKLYN HANDICAP RACE

Great Running Event of the East, for a \$10,000 Purse, Won by Castaway II.

An Unpleasant Surprise for the Knowing Betters-Louisville Jockey Club Races-Indiana League and Other Ball Games.

BROOKLYN RACES.

The \$10,000 Handicap Won by Castaway II, to the Surprise of Many Persons. BROOKLYN, May 15. - The Brooklyn Jookey Club to-day probably had the largest attendance seen at its track since the opening day, the occasion being the beginning of its spring meeting. Added to this was the attraction of the Brooklyn handicap, one of the great winter betting events. There were at least 20,000 people present. The weather was unpleasant, rain coming down in a drizzle during the afternoon. The track was very muddy, although not exactly "holding." The event of the daythe Brooklyn handicap-resulted in a somewhat unpleasant surprise for the bulk of the backers, inasmuch as a horse that had been running poorly at the winter tracks won in a convenient kind of a canter. In fact, Castaway II, had the race won after the first hundred yards, none of the others seemingly being able to get up to him. Los Angeles, the favorite, to the surprise of every one, was never in the race at all, and only animal that made any pretension to covering the ground was Badge. Castaway held the front right along, and apparently without much effort. But it was a good race under these circumstances, however, and the time made was surprisingly fast, the first half being run in tifty-one seconds and the nule in 1:43. Of course, many of the spectaters rated the race a fizzle, but then they looked at it from a practical, or rather financial point of view. Very little interest was taken in the other events, al-

though they reesulted in capital finishes. The great bandicap, which was the fourth on the card, but first in interest, was run under these conditions: The Brooklyn Jockey Club handicap: for three-year-olds and upward; \$100 each, half forfeit, or \$25 if declared; the club to add an amount necessary to make the gross value of the stakes \$10,-000, of which the second horse shall receive \$2,000 and the third horse \$1,000; weights to be announced Feb. 1, and declaration to be made by Feb. 20; one mile and a quarter. The starters were Sir Dixon, Los Angeles, Come-to-taw, Eric, Oriflame, Cynosure, Castaway and Vengenr. Just before the star event of the day the betting paddock was a sight to behold. Men fought like tigers to reach the book-makers. Old racegoers say they never saw such intense excitement around a track. To add to the turmoil, it was announced that Raceland, one of the heaviest-backed horses entered, had been scratched, and the hundreds that had their money on that horse were making frantic efforts to place their money else-

The scene when the bell rang was an animated one: men ran hither and thither to gain points of vantage. Finally the last bugle call sounded, and Badge was the first to appear, followed by the others. The usual parade was omitted. After a short delay the flag fell to an excellent start, but Castaway at once took the track, and passing the stand had a lead of fully four lengths, with Sir Dixon next, lapped with Vengeur, Cynosure and Eric. They ran in this order till around the first turn and entering the back stretch. Passing the mile pole Castaway led by a length and a half; Eric second, a length before Sir Dixon. He, in turn, passed by Vengeur, was a neck before Badge. From this point out the race was a perfect procession, Castaway winning in a slow canter, and almost pulled up, by eight lengths; Badge, who came strong in the stretch, finished second, two lengths in front of Eric, who was two lengths in front of Cometo-taw; three lengths behind came Las Angeles, and the rest straggled in, Sir Nixon finishing next to last, Vengeur being the whipper-in. Time, 2:10. Mutuals paid \$212.05; Place, \$52.70; Badge, \$15.15.

First Race-Sweepstakes, \$20 each, with \$1,000 added; five furlougs. Servitor was left. Civil-service, getting somewhat the better of the start, made the utmost use of it and led all the way, with Blue Rock second, a neck before Fordham. Time, 1:0212. Second Race-A handicap for all ages; one and one-sixteenth of a mile. At the first attempt the flag fell. Bella B. took the lead, closely attended by Sluggard and Taragon, and made the running for the first half mile. Then Eon joined the leaders and kept the track till the end and won by a neck; Sluggard second, Madstone third.

Third Race—Expectation stakes; for two-year-olds; \$100 each, with \$1,500 added; half mile. The flag fell to an excellent start. Grey Rock took the lead after the field got under way, closely attended by Abundance Colt. Stretching out for home, a capital finish resulted, but the Abundance Colt managed to win by a length: Terrifier sec-

ond, Turmoil third. Time-:5014.
Fourth Race-Brooklyn handicap. Fifth Race-Sweepstakes; for two-year-olds; \$20 each, with \$1,000 added; half-mile. Claudine first took the track, closely followed by Rometta, Wendaway and Sea-shore. They ran in that order into the stretch, where they were joined by Correc-tion and Jack of Diamonds. When well straightened out, Correction came away and won; Claudine second, Rometta third.

Sixth Race-Selling; all ages; \$1,000 added one mile. Lee Christy took the track, closely attended by Sparting and Franco. Sparting, however, went out and won by two lengths. There was a fighting finish for place, Fox Mede getting the verdiet by a head, and Quesal being third. Time—
1:4512. There was no bid for the winner, who was entered to be sold for \$1,800.

Louisville Jockey Club. LOUISVILLE, Ky., May 15 .- There was a fair crowd to-day for the second day's racing. The weather was cool, with a bright sun and the racing good. The principal event was the Hurstbourne stake, and it presented a pretty field of two-year-old fillies. There had been no rain for twentyfour hours and the track was nearly dry. but slow.

First Race-Selling; club purse of \$400; for two-year-olds; one-half mile. The starters were Ora, Katuna, Ed Leonard, Douglas, Cornbox, Jeannette. Ora came with a rush at the finish, and after a rattling fight with Katuna, in which the whips flew freely, won by half a length; Jeannette third, half a length behind. Time, :52. Ora was bid in by her owner at \$1,000 at which she was entered.

Second Race-Conditions of first; half mile. Starters: Susie Kirwin, Eccentric, Consolation. Rose Howard, Major Thornton and Woodford. In a difficult start Rose Howard got off first and was never headed, winning handily, the rest whipping, with Thornton second, at Howard's flank, and Woodford third, two lengths

away. Time, :52 Third Race-Club purse, \$400; for all ages; one mile and seventy yards. Starters: Ce-cil B., Bettina, Mt. Lebanon. Bettina dropped out of the race at the half mile. It was a whipping timsh, in which Mt. Lebanon won by a game spurt by a length.

Fourth Race-Hurstbourne stakes, for two-year-old fillies; \$1,000 added; five furlongs. Starters: Monte Rosa, Ida Pickwick, Annie Brown, Carrie Buckingham, Ethel, Anne Elizabeth, Melenie, Vera May, Cantatrice, Lady Washington and Planchette. It took a quarter of an hour to get a start. Finally Planchette was left at the post, and Lady Washington almost as bad. Lady Washington, however, quickly joined the bunch. At the half-mile post Anne Elizabeth was leading, Annie Brown second, Melenie third. There was then

Williams was on the floor of the House this morning, making personal appeals to the members against Carlisle. Carlisle has a winning lead, but the opposition to him is bitter in quarters. TEMPORAL POWER FOR THE POPE The Question Under Discussion Again and

Its Advocates Becoming More Numerous. LONDON, May 15 .- The threatened promulgation by the Pope of the dogma that the temporal power of the pontiff, of which the church was deprived by the advent of Victor Emanuel into Rome in 1870, is essential to the complete majesty of the vicegerent of Christ on earth, is the theme of general discussion in Catholic circles on the continent. The decision of sixty-six of the hundred bishops whose views of the matter were solicited by the Pope, that the present time is opportune for the declaration of this principle, evinces a positive swerving of popular opinion, for it is not to be presumed that these prelates have all, or even a considerable minority of them, gone contrary to the known tendencies of their flocks. The fact that the Italian bishops opposed the promulgation of the dogma is not to be taken as evidence of their belief that the occupant of the chair of St. Peter should be a temporal as well as a spiritual sovereign. The clergy of Italy are placed in a position of such peculiar delicacy with regard to expressions of opinion on matters touching the relations of the church and the state that no positive declaration of approval could be expected from them, while the laity have long since fallen into a state of apathy as regards both Pope and King, owing to the unchanging condition of the antagonism between the Vatican and the Quirinal, which the lapse of twenty years has not sufficed to modify, or even change in character.

The church party in the Italian Parliament is slowly increasing in strength, and to this extent it may be said that the popular feeling in favor of the restoration of the papal kingdom has grown, though it must not be assumed that, because the people are not enthusiastically on the side of the church, that they are earnestly sup-porting the position of the state. They have simply lost all interest in the matter because of the quiesence of the two opposing forces, and neither one, in the present condition of things, can claim the approval of the populace in its course. Therefore, nothing short of overt hostilities between the Vatican and the government can arouse the people of Italy to active interest in the question whether the Pope shall also be a king, or whether he shall remain as he is, a virtual prisoner in the largest palace in the world. The greatest number of favorable replies to the Pope's circular from any one country came, as might be supposed, from Austria, where the sentiment in favor of the temporal sovereignty of the church is strong and undisguised among the people, and Portugal furnished the next highest, the rest being divided about equally among Germany, France and England.

Mrs. Frank Leslie to Be Married to the Marquis DeLeuville Next Month. LONDON, May 15 .- The Marquis DeLeuville is the author of the statement that he and Mrs. Frank Leslie are engaged, and that the marriage will take place next month. Mrs. Leslie was seen to-day at the Grosyenor Hotel with the Marquis. She took the reporter into a private room and told him that she did not deny the rumor. She said that for five years she had had a great regard for DeLeuville, and time had not weakened that feeling. She added:

"You may draw your own conclusions, but I prefer not to discuss the matter at present. I shall go to Paris to-night and remain there till after the Marquis's trial. On my return the intentions of the Marquis and myself will be made public, and not till

On leaving the hotel the reporter met the Marquis in the corridor. DeLeuville asked what Mrs. Leshe had said. This gentleman," pointing to his companion, "is a lawyer specially employed to draft the marriage settlements." The lawyer assented to all the Marquis said. The Marquis's trial will take place on Monday.

In the United States Circuit Court, at Boston, yesterday, a motion was made by the government counsel in the Bell tele-

phone case that the time for taking testimony be extended three months. The mo-tion was opposed by counsel for the Bell company, and the matter was taken under advisement by Judge Colt. Paul Tonk, a wealthy farmer, was found hanging to a tree, near Beverly, W. Va., Wednesday night. The body had been hanging for days. Mr. Touk disappeared May 1. Because he was an important wit-
